

AMPLICON BIOTECH
amplifying science

***Empowering Businesses
with Strategic Insights
& Innovative Solutions
for Sustainable Growth***

COMPANY PROFILE

ABOUT US

Founded in 2016, Amplicon Biotech set out to "amplify" research by offering viable and affordable solutions for the scientific community. The company now provides thousands of high-quality products spanning **ELISA kits, antibodies, recombinant proteins, lateral-flow immunoassays and molecular biology reagents**, all designed to simplify lab workflows and support reproducible results.

At the core of its mission is a deep commitment to streamlining supply, logistics and technical support so that researchers from life-science industries and academic institutes to hospitals can focus on innovation rather than procurement. As an Authorized channel partner for leading global manufacturers, **Amplicon Biotech combines a wide product portfolio with dedicated service, making it a one-stop destination for R&D and production needs.** With a young, driven team and strong customer-first ethos, the company is steadily positioning itself as India's trusted biotechnology supplier.

VISION

To be a global leader in delivering innovative, reliable, and affordable biotechnology solutions that empower researchers, clinicians, and industries to advance human health and scientific discovery.

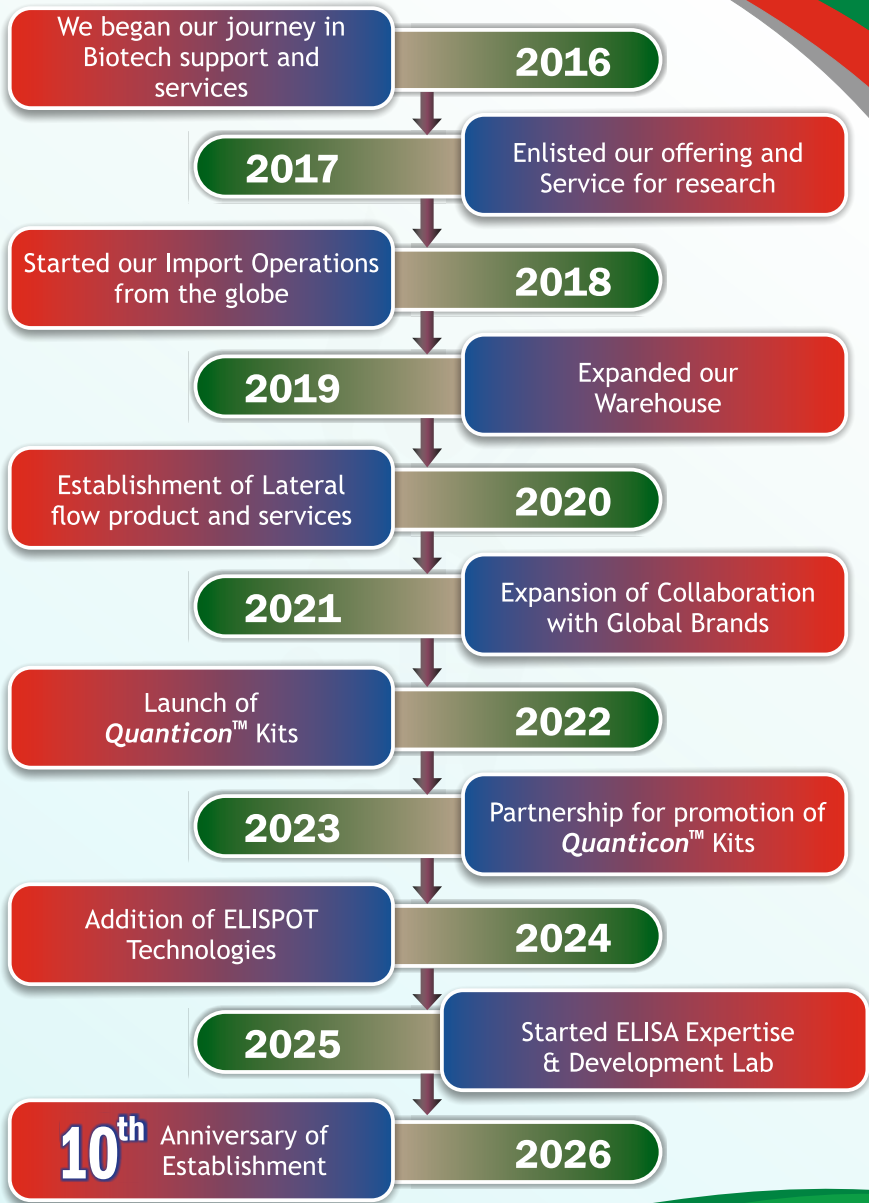

MISSION

To provide high-quality life-science products and diagnostic tools that ensure accuracy, reproducibility, and innovation in every experiment.

To partner with global and local institutions, fostering accessible technology for research, healthcare, and education.

To continuously expand our portfolio through scientific excellence, customer-centric service, and ethical business practices.

TIMELINE

CORE VALUES

INTEGRITY

We act with honesty, transparency, and responsibility in every collaboration

EXCELLENCE

We maintain uncompromising standards in our products, services, and processes.

INNOVATION

We continuously seek smarter, faster, and more efficient ways to support scientific progress.

CLIENT-CENTRIC

We listen, adapt, and deliver solutions that meet our clients' real needs.

OUR PORTFOLIO

OUR SERVICES

Lateral Flow Assay Development

Custom design & development of rapid tests (from assay design to optimization)

Gene/Peptide/Probe & Oligo Synthesis

High-quality synthetic genes, peptides and molecular probes for research & diagnostics

Antibody Customisation & ELISA Support

Tailored antibody production, ELISA kit support, data & analysis services

OUR ORGANIZATION

Teaming Up for Scientific Success at Amplicon Biotech! At Amplicon Biotech, we are a team of passionate individuals driven by a common aspiration: to amplify science by providing innovative and reliable solutions that push the boundaries of life science research and industry. Our mission is to empower researchers, scientists, and businesses by delivering cutting-edge technologies, top-tier support, and comprehensive services tailored to meet the diverse needs of the life sciences field. Whether you are involved in biomedical research, pharmaceutical development, or diagnostics, Our expertise spans a wide range of services, including ELISA testing, data analysis, and customized assay development, all backed by a robust technical support team ready to assist at any step of your project. We understand that in the rapidly evolving world of life sciences, staying ahead of the curve is crucial. That's why we continuously strive to innovate, improve, and provide solutions that align with the latest scientific advancements. Our dedication to excellence extends not only to our products but also to the level of service we offer. We view each partnership as an opportunity to amplify scientific progress by delivering precise, reliable, and scalable solutions that address real-world challenges. The Amplicon Biotech team is always here to support you in your pursuit of scientific discovery and technological advancement. Together, we can amplify science and advance the frontiers of innovation.

Mr. Sudhir K Jha CEO & Founder

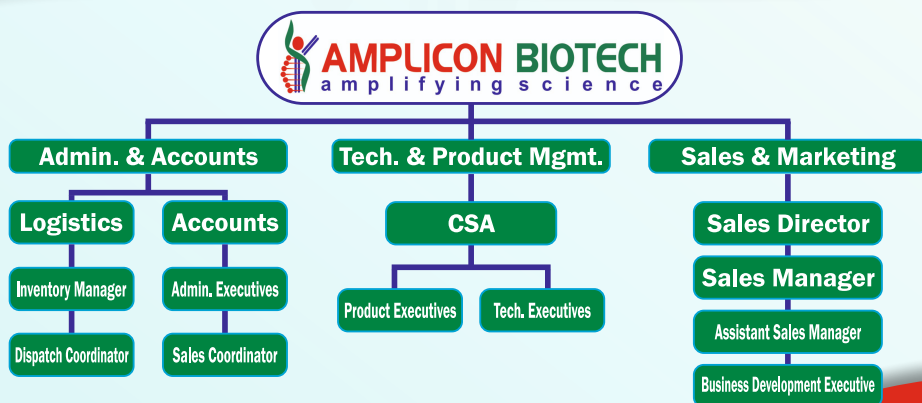

is a visionary leader known for combining strategic foresight with deep scientific understanding to drive innovation in biotechnology.

Mr. Mukesh Verma Chief Sales Officer

brings exceptional market insight & business acumen, ensuring company's products & services reach to scientific communities.

Dr. A. Singh Chief Scientific Advisor

provides expert guidance on research and development, aligning cutting-edge scientific ideas with real-world applications.

WHY CHOOSE US?

AMPLIFYING SCIENCE

We are committed to advancing scientific progress by bringing innovative offerings and developing diverse solutions that empower researchers. Our goal is to facilitate scientific discovery and transform ideas into reality through cutting-edge technologies and continuous innovation.

TAILORED SOLUTIONS

Every customer's needs are unique, and so are our solutions. We provide customized, end-to-end support designed specifically to meet your workflow, operational, and research requirements—ensuring precision, efficiency, and maximum value.

PROVEN TRACK RECORD

With more than 10 years of industry experience, we have established a strong reputation for reliability, quality, and excellence. Our long-standing success reflects our commitment to delivering consistent results and building lasting partnerships with our customers.

OUR CLIENTS

RESEARCH

We support research organizations dedicated to pushing the boundaries of scientific discovery. Our solutions empower laboratories, R&D centers, and scientific institutions with innovative tools, reliable technologies, and tailored services that accelerate experimentation, enhance data quality, and drive meaningful breakthroughs.

ACADEMIA

We proudly serve universities, colleges, and educational institutions by providing resources that enrich learning, support advanced research, and strengthen academic excellence. Our offerings help educators, scholars, and students access high-quality tools and technologies that foster curiosity, encourage innovation, and promote hands-on scientific exploration.

INDUSTRY

We collaborate with industry partners across pharmaceuticals, biotechnology, healthcare, manufacturing, and other sectors to deliver practical, scalable, and efficient solutions. Our expertise supports product development, quality assurance, process optimization, and compliance—helping businesses improve productivity, reduce downtime, and achieve operational excellence.
